Eden Athletics - Jack Russell's Steakhouse Points Series

www.edenathletics.com

Eden Athletics is pleased to announce the schedule for the *2008 Eden Athletics - Jack Russell's Steak House Points Series*. This series, now in its second year, allows runners the opportunity to earn points based on their overall (or age group) finish in each of the twelve races in the series. At the end of the season, point totals are tabulated for each age-group and "open" category and awards are presented to the top finishers in their respective groups. Participation in at least six races is required for eligibility for these awards.

The series will kick off this year with the *Flat Top 5K on March 29th* and will conclude with the *Running of the Wildcats 5K on November 8th*. Last year the races in the series involved over 800 runners. Based on the interest that we saw develop throughout last season, we anticipate that this year there will be a strong "core" group of runners vying for points at all of these events.
